GMU Information and Learning Center

GMU Library Resource Index

Academic Year 2018-2019

Introduction

GMU Library is a modern facility with a total area of 10000 sq ft located strategically for faculty, students and staff to support their information needs and to access Library at any time of the day or night. The Library has been conceived and developed as a multifaceted learning centre dedicated to serve the agenda of the University as being operated by its students, faculty and health professionals. To serve this purpose, the Library has access to a large variety of learning resources such as Books, Journals, Online database, Internet & Multimedia facilities in the field of biomedical sciences and health care.

Vision of the GMU

To be a leading international Academic Healthcare Institution through the integration of quality health professions education, research, healthcare and social accountability for sustainable community development.

Mission of the GMU

To pursue excellence through integration of health profession, education, translational research, quality healthcare, innovation and social accountability enhanced by national, international partnerships and community engagement.

Vision of GMU Library

To develop library facilities, services and systems that match world's best practices utilizing skilled staff who would fully exploit all resources to offer high-quality services by focusing on regional collaboration, cooperation, networking and resource sharing.

Mission of the GMU Library

The purpose of the GMU Library is to support all academic programs, research, health services and continuing education in the university by providing students, faculty and staff with learning resources and services to achieve their educational objectives.
